NO-AGE

Norwegian Centre on Healthy Ageing Network

September 13, 2026

Re: Guidelines on becoming a 'Partner' or 'Sponsor' of NO-Age and the 2027 Nature Conference on Healthy Brain Ageing

To whom it may concern,

The Norwegian Centre on Healthy Ageing network (NO-Age) is an integrated, interdisciplinary centre for human ageing research at international top level, with a translational goal to empower people to live longer, healthier, and more meaningful lives. NO-Age aims to employ a common conceptual framework to understand the complex interplay of biological, physiological, cultural, and social factors that influence health and wellbeing at individual, population, and societal levels. NO-Age actively engages with our stakeholders to develop interventional strategies and policies to promote healthy living and social participation at old age.

NO-Age official website www.noage100.com and twitter <https://twitter.com/NoAge100>

NO-Age comprises an Advisory Board (including Profs Vilhelm Bohr, Zhong-Jun Zhou, Tony Wyss-Coray, Eric Verdin, Linda Partridge, and Pål Barkvoll, and the deceased George Martin), Primary National Members (including the Nobel Laureates Profs May-Britt Moser and Edvard I. Moser, among others), Primary International Members (Including the Nobel Laureate Prof. Tomas Lindahl, Profs N. Tavernarakis, David Rubinsztein, Toren Finkel, etc), Associate members, User Representatives, as well as Media and Industry Partners/Sponsors, with details information in <https://noage100.com/people/>.

Led by [NATURE CONFERENCES](#), NO-Age and the University of Oslo (UiO), in partnership with the Hong Kong University of Science and Technology (HKUST, Hong Kong) and Nanyang Technological University (NTU, Singapore), will be organising the Nature Conference Healthy Brain Ageing 2027 in Oslo.

Dates: to be updated (late summer 2027)

Length: a 3-day conference

City: Oslo, Norway

Faculty of Medicine
Institute of Clinical Medicine
Department of Clinical
Molecular Biology
